

North Carolina State University - ClassEval Report	
Emplid: 200059388	Name: FNU Bila -- Course: Princ of Macroecon
Term: 2016 Fall	EC 202 005 Courses surveyed - EC 202 005
Question	Response
Comment on strengths and weaknesses of the instructor	I think that he could have been a little more excited to teach the class, he also didn't give us a lot to study for the test. We had a practice test but there were a lot of differences.
-----	-----
Comment on strengths and weaknesses of the instructor	The way Bila presented notes and explained them on the board was one of the best I have had while at NC State. Made sure the class was clear on a topic before moving on.
Comment on strengths and weaknesses of the course	This course gave me an understanding of basic macroeconomic principles that I was able to apply to other courses.
Give suggestions on how the course or how the instruction could be improved.	Find a way to relate course objectives to everyday outcomes of the economy.
-----	-----
Comment on strengths and weaknesses of the instructor	Very knowledgeable on the subject, excellent teacher.
-----	-----
Comment on strengths and weaknesses of the instructor	he didn't really help students prepare well for the tests. he gave a practice test, but didn't provide any solutions or anything to help you know whether or not you were doing it right. he didn't even review anything in class. if you studied the practice test and really thought you knew how to do something but you didn't you would make all of the same mistakes on the test.
-----	-----
Comment on strengths and weaknesses of the instructor	It would have been nice if the instructor used a powerpoint of sorts to assist in his lecture; him writing everything on the board took up so much time and forced the class to move at a slower than necessary pace.
-----	-----
Comment on strengths and weaknesses of the instructor	At times it was hard to understand the instructor.
Comment on strengths and weaknesses of the course	This course was kind of dry. It could be more effective by adding in some more interactive activities in the classroom.
-----	-----
Comment on strengths and weaknesses of the instructor	Strengths: I enjoyed the way we took notes in this class and how he wrote them with us Weakness: There can be some communication barriers
-----	-----
Comment on strengths and weaknesses of the instructor	I loved this class and thought my professor was great. A weakness of the instructor was not that he didn't teach well but I think the review guides for our tests could have been more in depth which would have helped test scores. Overall, I thought the instructor was great and I would love to have him again.

Comment on strengths and weaknesses of the course

I was not a fan of the MindTap homework. MindTap gives you 3 chances to answer each question and it averages out each try which equals the final average for that question. I did not like that because for instance, say I missed part of a question the first try, then did it again and got the whole answer correct I still wouldn't receive full credit for the question. This caused my homework grade to not be as good as it could have been.

Question	Response
Comment on strengths and weaknesses of the instructor	One of the best professors I have had. I stayed engaged the entire time and his teaching style was great.
Comment on strengths and weaknesses of the course	I wish we had a little more of an idea of what material would be on the test specifically, especially when it came to the multiple choice questions.
Give suggestions on how the course or how the instruction could be improved.	Thankful for his teaching style and that I could understand him.
-----	-----
Comment on strengths and weaknesses of the instructor	Though he was a little hard to understand at times, he made a great point to try and explain things to us in ways that were easy to understand. He always made it a point to create examples and was overall very helpful in and out of class.
-----	-----
Comment on strengths and weaknesses of the instructor	Instructor taught all material throughly and completely. Made sure to cover all material that was in textbook and would be on test. Was always very helpful during his office hours and went out of his way to make sure that you better understand the concepts if you come to him for help. He wants everyone to do well on the exams and doesn't go out of his way to trick you at all. Very straightforward and considerate. Class could get tedious at times always writing what was on the board but I understand that was just as tedious for the professor and he just wanted to make sure he was explaining all material. Always enthusiastic and on time and prepared.
Comment on strengths and weaknesses of the course	Textbook was great. Not too long and had all definitions clearly outlines and easy to read. Instructor went over chapters basically word for word in class so you don't have an excuse to not do well. Homework sometimes was confusing and you only get three attempts and those three attempts are all averaged instead of taking the highest of the attempts which cause my homework grade to suffer a little. I would suggest taking the highest of the attempts for each homework problem.
Give suggestions on how the course or how the instruction could be improved.	Course didn't need much improvement. Could may offer more help with the online homework because it could be difficult at times and sometimes different than the material covered in lecture. Really awkward timing that the homework was always due at 8 am on Tuesdays.... a Sunday at midnight due date would be much better and easier to remember. Also more in class practical problems and practicing the math associated with the chapters is necessary. Exam review days would also be helpful.
-----	-----

Comment on strengths and weaknesses of the instructor	Bila knows a lot about what he teaches and he does a good job of using the information in the textbook without straying but also elaborating on what is important. The only weakness is he sometimes does not effectively answer student questions and it seems like an extended miscommunication rather than a resolution. He often listened to class concerns and tried to make a decision that was best for everyone.
Comment on strengths and weaknesses of the course	The homework was not too tedious or excessive and often helped me apply what we learned. When I needed to use the textbook I was able to find most of the answers I needed.
Give suggestions on how the course or how the instruction could be improved.	More clarity about the textbook needed at the bookstore because many people bought the wrong book and it turned into a large issue.
-----	-----
Comment on strengths and weaknesses of the instructor	He explained things in a way that were easy to understand. Sometimes some information was left out in notes that I would notice on homework. He gives a lot of practice problems and goes over the tests afterwards as well. He really wants the class to understand and do well and definitely presents opportunities to do so via practice problems and homework.
-----	-----
Comment on strengths and weaknesses of the instructor	He's done an excellent job at making sure students know the material needed for the exams. Did really well for his first semester teaching as well
Comment on strengths and weaknesses of the course	BALL IS LIFE
Give suggestions on how the course or how the instruction could be improved.	Bila is good
-----	-----
Comment on strengths and weaknesses of the instructor	Post notes before class
-----	-----
Comment on strengths and weaknesses of the course	I spent about 2 hours outside of class a week on homework.
-----	-----
Comment on strengths and weaknesses of the instructor	good
Comment on strengths and weaknesses of the course	good
Give suggestions on how the course or how the instruction could be improved.	good
